

First week - There is just no way to fit all that happened last week into a few sentences. It was fun & funny, exhausting, heart pulling, nerve straining, nice weather and a very large group. Our theme was 'Flying with God'. Each day we "flew" to a different country including the USA, Poland, Ukraine, Australia, Israel and the Carribean. Our stewardesses would explain about our trip and hand out snacks during our flight. Also each day during worship we talked about flying with God when we feel afraid, alone, angry, when we fail and when we have suffered injustice. There were also silly morning exercises, skits, singing, games, crafts, swimming, massage, and 3 cook outs at the campfire.

I saw the team make sacrifices at many levels. Since this was my first camp I have nothing to compare to but am proud of the team; impressed at the depth of the program and watched with my own eyes changes in several of the

moms. Thank you for your prayers! Three mothers invited Christ to be Lord of their lives! And, many others went home with much to think about and expressed a desire be more a part of the ministry activities.

Please do continue to pray. Over Saturday through Tuesday, many of our team got sick, including myself. 4 have a cold and 6 some type of stomach bug. Our second week started yesterday and 4 people remain in 'quarantine.' We really do not want any of the moms or kids in this new group to get sick. But with fewer leaders, others are needing to stretch themselves further. So please pray for complete healing, protection of health for this new group, that Satan could not have his way but that God's perfect will be done in this second week of camp. Thank you! June
