

Greetings in Christ our Lord,

We as Pastors, with full approval of our Leadership Team are changing our Sunday Morning Worship Schedule, beginning this coming Sunday, July 26th, through the month August.

Beginning this Sunday, July 26th, we will have just one Worship Service on Sunday morning, and that Sunday Worship Service will be at 10:30AM. You are welcome to come earlier to sit in the Sanctuary for prayer. We will have all the doors and windows open, with ceiling fans on high with plenty of airflow, so remember to layer up or even wear a jacket as the room will not be heated. We are strongly encouraging everyone who comes for worship to wear face coverings. Thanks for helping us all stay healthy and for showing Christ's compassion for others, especially for the most vulnerable. We have plenty of face masks available for you on site if you forgot to bring yours.

We will continue providing prerecorded Sunday Worship for each of you who are joining us for worship Online via our Community Church YouTube Channel. Prerecorded weekly Sunday Worship Service will be available on Sunday morning at 10:30AM.

We've recently ordered new video equipment that has all now arrived. In early August, we'll begin installing, testing, and learning to use this new equipment and the computer programs that help run them to improve our audio and video recording and livestreaming of our worship services. We'll let you know when we have these improvements in place, and what to expect.

For other Online aids for your spiritual growth in Christ, we encourage you to explore our Cannon Beach Community Church YouTube Channel. Here's the link to our Church YouTube Channel:
